AUDITOR'S REPORT

Goshen, N. H.

February 12, 1949

To the Selectmen of Goshen:

This is to certify that we, namely William Holm and myself audited the town books and found them in good order.

HARRY A. Warburton Jr.
Auditor

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and wood fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been greatly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or shrowing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

1948 Fire Record, Town of Goshen:

Number of fires—2.

Acreage burned—under one half acre.

Number of Fire Permits Issued—16.

Respectfully submitted,

GEO. B. BARTLETT, Jr.

SUPERINTENDENT'S REPORT

To the Goshen School Board:

I herewith submit my third annual report as your Superintendent of Schools:

It is a pleasure to be able to report that your schools have made progress this past year under the able direction of your two loyal, hard working teachers. There is no doubt but what they have profited a great deal from the workshops sponsored by the Superxisory Union and from the extension course given under the direction of Keene Teachers College. Every encouragement should be given to allow them to continue their professional advancement. However, I do not see how we are justified in expecting them to continue unless we are willing to increase their salaries so that they can afford the extra expense involved.

The two major improvements to the school buildings this year were the repair of the ceiling and repainting of the Village School and the providing of running water for the Corner School. Both were very much needed and have raised the efficiency of the building materially. There are several such projects that could well be undertaken to bring the schools up to high standard rural schools.

There are those who would argue that we need a

new school building to house our pupils and that to spend money on these projects would be merely pouring money down the drain. There is certainly merit in these arguments but at the present time building costs are so high that construction of a new school house seems out of the question. Until such time as new accommodations are possible we will continue to have children to educate and it would appear needed improvements increase the salable value of the buildings.

The outstanding achievement of the year has been the remodelling of the hall and woodshed at the Corner into a very fine, attractive hot lunch unit. Everyone in the district may well be proud of this achievement and everyone who took part in this community project is to be commended for the unselfishness and willingness to help that has made this project possible.

The hot lunch program continues to be one of the better ones in the union. Thanks to the continued interest and financial help of the women in town, the appropriation voted at the last school meeting, the efficiency of the worker, Mrs. Newhall and the new kitchen and program has improved a great deal this year. Even though some may feel that the school is assuming another responsibility of the home, the results prove that it is a very beneficial move and that the educational efficiency of the individual child is materially raised.

I would like to take this opportunity to express my personal appreciation for the fine cooperation of the school board, teachers and parents during the past year. With your continued support we can keep on improving the Goshen school system.

Respectfully submitted,
HENRY J. HASTINGS,

SCHOOL NURSE'S REPORT

During the early fall the routine health inspection was held with weighing and measuring to determine the year's gain in health growth.

In January the Western Electric Audiometer was used in group testing for hearing. There were no reportable cases of impaired hearing.

An epidemic of communicable diseases and diarrhea invaded the schools. Please keep your child home from school when he is sick. It is better for him as well as for the other children.
